HORECA is an exhibition that enables a lot of global companies to show their hospitality, new generation technologies, and food services in Greece. Suntech presents its most elegant and technological innovations every year in HORECA Greece.

afa

In cooperation with one of our selected German dealers AGT-Denner we attend on Augsburg located Afa exhibition to create new projects and business structures with unfaltering steps.

SUNTECH exhibited at HD Expo in Las Vegas, USA.

HD Expo, held in Las Vegas, USA, is the premier trade show and hospitality conference for its industry for USA, Canada and Mexico markets. It remains at the forefront by offering the newest and most innovative products and services, encouraging and sharing ideas, providing inspiration and connecting hospitality professionals.

HD Expo is dedicated to bringing the interior design industry, architects, owners/operators, developers, specifiers and purchasers the best available resources for their projects. This includes the most informative conference sessions led by top specialists pertinent to today's industry.

DAS INTERIOR SHOW

Suntech presented its innovative products that shape the future of architecture under Privée collection at Das Interior Show held in Moldova.

SUNTECH was ready to announce its innovated technological solar protection systems at Polyclose in Belgium

Polyclose, held in Belgium, has become the largest event in the Benelux in the area of sun protection, façade, window, door and entrance technology. Polyclose stands for everything which opens and closes and offers an overview of all moving elements on and in the façade including gates and fences. The range is extensive but perfectly coordinated with each other. Furthermore, you will find here in Ghent the very latest trends, the most fascinating innovations and the biggest market players.
